- a) 2005 and 2006 Teacher at University of Udine Medical School - Department of Surgery and Transplants for Course on Colonproctology in Session “Gastroenterology: IBD”.
- b) 2006 Teacher at Course “No Gluten” organized by Italian Association of Celiac Disease.
- c) 2007 and 2008 Course Faculty, 3rd year Gastrointestinal Pathophysiology, University Hospital of Udine (led small group case discussions, prepared exams, assisted in grading).
- d) 2012 Teacher at Course “Protection in patients undergoing ionizing radiations” in Session “Optimization of interventional procedures in Gastrointestinal Endoscopy” organized by University Hospital of Udine.
- e) 2012 - present Sub Investigator for IMUNITI, UNITI1, Gardenia (International IBD studies).
- f) 2012 - present Teaching Assistant in Gastroenterology at University Hospital of Udine.
- g) 2019 - present Exam committee member in Gastroenterology at University Hospital of Udine.

h) 2020 - present	Principal Investigator for study "Indications and patients' selection for bariatric endoscopy for the treatment of I and II grade of obesity: a single centre, prospective, randomized controlled study".
i) 2021 - present	Principal Investigator for Pretti-Study (International Obesity studies).
j) 2021 - present	Principal Investigator, Study Coordinator and Responsible Party for the study "Bariatric Endoscopy for Treatment of I and II Grade Obesity" ClinicalTrials.gov Identifier: NCT04854317
h) 2022 - present	Certified Proctor of Endoscopic gastroplasty for obesity: Endoscopic Sleeve Gastroplasty (ESG, Apollo Endosurgery), Endoluminal Vertical Gastroplasty (EVG, Endomina Endo Tools Therapeutics), Primary Obesity Surgery Endolumenal (POSE2, USGI)

Practical procedures:

Anaesthesia Simple and advanced sedation (benzodiazepine, opioids), BLSD certified

Endoscopic procedures Diagnostic and operative esophagogastrosocopy

Diagnostic and operative colonoscopy (almost 100% cecum intubation with almost 100% of retrograde ileum intubation when needed)

Operative endoscopy Lower and upper gastrointestinal dilatation and stenting of neoplastic and non neoplastic strictures (mechanical and pneumatic)

All hemostasis technique in upper and lower GI bleeding (variceal and non variceal): thermal (bicap, APC and heat probe), injection (adrenaline, atoxisclerol, fibrin glue and acrilate polymers), mechanical (endoclips), Esophageal Band Ligation

Removing of ingested foreign body

Debulking of GI cancers (thermal therapy with lasers and APC)

Percutaneous Endoscopic Gastrostomy

Lower and upper endoscopic polypectomy and endoscopic mucosal resection

ERCP

ESD

BIB positioning for obesity

Endoscopic gastroplasty for obesity: Endoscopic Sleeve Gastroplasty (ESG, Apollo Endosurgery), Endoluminal Vertical Gastroplasty (EVG, Endomina Endo Tools Therapeutics), Primary Obesity Surgery Endolumenal (POSE2, USGI)

EUS in training

Special interest in:

Hepato-biliary diseases, Endoscopic therapies for Obesity (Principal Investigator for international studies, like Pretti-Study; PI, Study Coordinator and Responsible Party for the study "Bariatric Endoscopy for Treatment of I and II Grade Obesity" ClinicalTrials.gov Identifier: NCT04854317), IBD (Principal or Sub Investigator for national and international studies, like IMUNITI, UNITI1, GARDENIA), Colon cancer, Coeliac disease, GERD & BE, Functional Diseases, Endoscopic palliation of GI cancers.

C. Invited Lectures:

1. *Non simple diagnosis of Coeliac Disease. Management of patient with Celiac Disease in a referral Center* - XII Interregional Course of training in Gastroenterology, Milan 10/16/09.
2. *Iatrogenic anastomotic biliary stricture post-OLT: endoscopic treatment* - XX Congress of Videosurgery of Italian Surgeons Association, Catania 09/16/10.
3. *Role of Fecal Calprotectin on Diagnosis of IBD* - Meeting of Medical Society of Friuli Venezia Giulia, Udine 11/30/11.

4. *Coeliac Disease of adults* - Congress of Association of Internal Medicine of North-East Italy, Trieste 09/21/12.
5. *Clinical aspects of Coeliac disease of adults* - Meeting of Medical Society of Friuli Venezia Giulia, Udine 11/26/12.
6. *Therapy of IBD* - VIII Update in Gastroenterology, Udine 09/20/13.
7. *Emerging role of IL-28B genetical polymorphisms as predisposing factors of biliary anastomotic strictures in patients undergoing ERCP after Liver Transplantation* in the Session "Therapeutic ERCP update" - UEGW 2013, Berlin 10/16/13.
8. *Analysis of clinical and endoscopic factors predisposing the success of ERCP in resolution of biliary anastomotic strictures after liver transplantation* in the Session "ERCP and biliary/pancreatic" - 20° Italian National Congress of Digestive Diseases, Napoli 03/21/14.
9. *Esophageal stenting with self-expanding degradable esophageal stent* - X Update in Gastroenterology, Udine 11/08/14.
10. *Endoscopic and pharmacological prophylaxis of post-ERCP pancreatitis: a meta-analysis and systematic review* in the Session "Posters in the Spotlight" - UEGW 2016, Vienna 10/18/16.
11. *IBD diagnostic and therapeutic path in Friuli-Venezia Giulia: the operating phase* - XII Update in Gastroenterology, Udine 10/26/16.
12. *Bowel preparations for colonoscopy* - XIII Update in Gastroenterology, Udine 11/08/17.
13. *The microbiota, this stranger* - Regional GMC, Udine 02/27/18.
14. *GERD and dyspepsia: diagnosis and different treatments* - XIV Update in Gastroenterology, Udine 11/07/18.
15. *Gastroenterologist and obesity: which future?* - XV Update in Gastroenterology, Udine 11/08/19.
16. *Questions from Mater Olbia Hospital* - Advances in Bariatric Endoscopy, Olbia 03/22/21.
17. *Preliminary results of a prospective, single center, randomized controlled study on feasibility, safety and efficacy of three different techniques of endoscopic gastroplasty* in the Session "Bariatric Endoscopy: efficacy and outcomes" - ESGE Days 2022, Prague 04/29/22
18. *Endoscopic Gastroplasty: feasibility, safety and efficacy of three different techniques by preliminary results of a prospective, single center, randomized controlled study* in the Session "Opening Symposium and WEO Best Abstracts Awards" - ENDO 2022, Kyoto 05/13/22
19. *Three different techniques of Endoscopic Gastroplasty: technical aspects from preliminary results of a prospective, single center, randomized observational study* - FISMAD 2022, Rome 05/13/22
20. *Three different techniques of endoscopic gastroplasty: technical aspects from preliminary results of a prospective, single center, randomized controlled study* in the Session "Endoscopic Sleeve Gastropasty Gastric Plication: The Maturing of a Procedure" - DDW 2022, San Diego 05/24/22
21. *Endoscopic Gastroplasty: a feasible, safe and effective mini-invasive procedure to treat obese patients. Preliminary results from a prospective, single center, randomized controlled study* in the Session "Oral abstract presentations" - IFSO 2022, Miami 08/27/22
22. *Improvement of anthropometric measurements, body composition and quality of life after Endoscopic Gastroplasty: preliminary results from a prospective, single center, randomized observational study* in the Session "Oral abstract presentations" - IFSO 2022, Miami 08/27/22

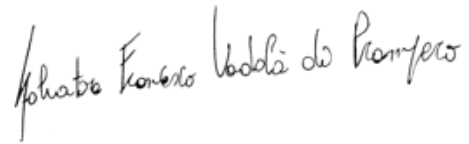

23. *Endoscopic Gastroplasty: technical aspects of three different techniques from a prospective, single center, randomized observational study* in the Session "Endoscopy and GI surgery" - UEGW 2022, Vienna 10/09/22.
24. *Anthropometric measurements, body composition and quality of life improvements after endoscopic gastroplasty: preliminary results from a single center, randomized trial* in the Session "Obesity" - ESGE Days 2023, Dublin 21/04/23.
25. *The Phase Angle as predictor of weight loss in endoscopic gastroplasty: preliminary results from a single center, randomized study* in the Session "Obesity" - ESGE Days 2023, Dublin 21/04/23
26. *II session of Live Workshop for Digestive Endoscopy Nurses* - Endocare 2024, Rome 03/02/24
27. *Endoscopic removal of endoluminally migrated mesh in patient undergoing MacLean vertical bend gastroplasty* - Video Session FISMAD 2024, Rome 12/04/24
28. *Post-polypectomy surveillance* - "Quality in Colonoscopy" course for nurses, Rome 20/04/24
29. *Different intragastric balloon's fill volume: 500, 600, or 700 ml - any difference in outcome?* in the Session "Revolutionizing Weight Management: Advances in Bariatric and Metabolic Endoscopy" - ESGE Days 2024, Berlin 26/04/24
30. *Clinical outcome of three different techniques of endoscopic gastroplasty. Results at 18 months follow-up from a single center, RCT* in the Session "ASGE Presidential Plenary" - DDW 2024, Washington 18/05/24
31. *Clinical outcome of three different techniques of endoscopic gastroplasty: results at 18 months follow-up from a single center, randomized controlled trial* in the Session "Nutrition and the gut" - UEGW 2024, Vienna 14/10/24
32. *Three techniques of endoscopic gastroplasty: clinical outcome at 18 months follow-up from a single center, randomized controlled trial* in the Session "Oral communications Session OC.17 Upper GI 4" - FISMAD, Roma, 14/04/25
33. *Performance of three endoscopic gastroplasty techniques in different obesity classes. Results at 18 months follow-up from a single center, randomized trial* in the Session "Best Oral Communication" - FISMAD, Roma, 14/04/25
